Dear Corner Cousins: It has been a year since I have written anything for the corner, and as I have a few moments to spare just now, I will try and write you a letter. I have been so busy what I can do, as you can surely see by the many letters I have written now. Many thanks to Master Michael, and if I could ever go to Boston, I would like very much to call on him and see his collection of fish.

My dear cousins in Massachusetts, I may some day go visiting there. It would be it be nice if Miss Curiosity could meet up there, as she is still very curious to see me.

One day near the woods, where I can see the woods birds singing sweetly every day and evening—I am looking down in the dark, green, shadowy forest, as if I were looking at a letter, and thinking of what has happened to my little grand

woods, where we had been hunting
moose, to plant another trap line.
We had not been at home long
before a neighbor came after some milk and
a large hobb cart laying by the side
of the house where Dorothy and I
were gone along.
The dog jumped over a fence into the
woods and laid down again. I am
not sure if it did not. Did you
see any one out after you? I re-
member one night a few years ago,
on my way out for something to do, Grand-
pa and I started out to hunt. I
remember hunting one night after we
had been out some time the dog com-
menced to bark and Grandpa said, "the
moose is in the woods." I went
on where the dog was. I followed as
far as I could, and when we came
up on the dog, he was running round and

didn't find any art out, they usually came hunting, for bugs on a moonlight lit, so we gave it up and started for home.

"The dog ran on ahead of us down into corner of the field where he had been kicking before, and all at once he went bounding back to us, and I saw that he was. We ran as fast as we could in the moonlight, and when we got there, we lighted lanterns and found the dog down in the bushes again, kicking and scratching. I saw Grampa went down into the bushes quite a ways and was looking under trying to help the dog find the tick of whatever he had started, all at once he came bounding back to us, and he says from him; he jumped about five feet right up in the air, and when came down, he came right to the wall where we were standing, and he said, 'Did you hear that?' and he said, 'I heard them before, that's a boober, I heard them before.' 'Well let's I's home, this is no place for a nervous dog,' said Grampa, so we started for the house and the rolling hills, and we ran in the edge of the woods, and that's how our skunk hunting. The cat went down through the woods, howling every way until he went out of hearing. I saw Grampa and Grampa said, 'The cat's in the skunk hole.'"

103rd Consecutive Check

It's C. M. P. Dividend Day Again—July 1

FOR over a quarter of a century Central Maine Power Company stockholders have been getting their dividend checks with clock-like regularity—103 consecutive times.

Over 20,000 stockholders are now sharing in these dividends. The amount now totals over \$325,000.00 each quarter—over a million dollars each year. Since its first share was issued the Company has distributed in preferred stock dividends over \$10,000,000.00—most of this to Maine people.

These dividends should continue to go out four times every year just as long as cities and towns continue to illuminate their streets and highways, factories and mills; to operate and light their buildings; to illuminate homes; to wash and iron clothes, cook, properly refrigerate foods, and to heat water. The many other home uses for electricity are continually becoming greater and greater.

How reassuring it is, especially in these somewhat troubled times, to know that you have some C. M. P. Preferred Stock.
